

ADITHYAN A S

Software Engineer | Frontend Developer | MEAN Stack Developer
Thiruvananthapuram, Kerala, India | +91 6282445626 | adithyan32adhi@gmail.com
[linkedin.com/in/adithyan-as](https://www.linkedin.com/in/adithyan-as)

PROFESSIONAL SUMMARY

Software Engineer with nearly 3 years of experience architecting and delivering scalable, high-performance web applications using Angular (v2–v20), TypeScript, JavaScript (ES6+), HTML5, CSS3, and SCSS. Skilled in building reusable component libraries, Standalone Components, Angular Signals, and Angular SSR for improved load performance and SEO. Experienced in Reactive Forms, REST API integration, and state management with RxJS and NgRx. Proven track record leading Agile ceremonies (sprint planning, stand-ups, retrospectives), driving CI/CD-integrated deployments, and conducting cross-browser testing to ensure consistent, accessible user experiences. Adept at full-stack development with Node.js, Express.js, and MongoDB, with strong focus on performance optimization, accessibility (a11y), and modern frontend architecture.

TECHNICAL SKILLS

Frontend	Angular (v2–v20), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, React
UI Frameworks	Angular Material, Bootstrap, Tailwind CSS
State Mgmt.	NgRx, RxJS, Observables, Angular Signals
Angular Core	Standalone Components, Reactive Forms, Dependency Injection, Lazy Loading, OnPush Change Detection, Angular SSR & Hydration, Zoneless Change Detection, Component-Based Architecture
Backend & DB	Node.js, Express.js, MongoDB, MySQL, REST API Design & Integration
Cloud & DevOps	AWS (S3, EC2), Git, GitHub, CI/CD Pipelines
Testing & QA	Jasmine, Karma, Unit Testing, Cross-Browser Testing, Postman
Methodologies	Agile/Scrum, Agile Ceremonies (Sprint Planning, Stand-ups, Retrospectives)

PROFESSIONAL EXPERIENCE

Software Engineer — Tata Consultancy Services

Apr 2024 – Present

Client: Apple Inc. | Thiruvananthapuram, Kerala

- **Architected** a reusable Angular component library consumed across 4 enterprise applications, cutting development effort by **30%**.
- **Engineered** scalable, enterprise-grade Angular applications using TypeScript, RxJS, Angular Material, and Reactive Forms, following modern frontend best practices.
- **Delivered** seamless frontend–backend communication by integrating RESTful APIs for efficient data exchange across application modules.
- **Optimised** application performance by **25–40%** through lazy loading, OnPush change detection, and bundle-size optimisation.
- **Accelerated** release stability by performing unit testing with Jasmine and Karma alongside cross-browser testing, reducing production bugs by **40%**.
- **Implemented** responsive, accessible UI using HTML5, CSS3, and SCSS, ensuring cross-browser compatibility across modern web platforms.
- **Integrated** AWS S3 for dynamic media handling, improving asset loading performance across modules.
- **Spearheaded** cross-functional collaboration between frontend, backend, QA, and product teams to accelerate feature delivery within **CI/CD-integrated** release pipelines.
- **Established** predictable application state using NgRx and RxJS, improving data flow consistency across modules.
- **Accelerated** development velocity by leveraging AI-assisted tools for code generation, automated test case creation, and debugging.
- **Led** migration of legacy Angular applications (v2–v13) to Angular 20, adopting Standalone Components and Signals, and reducing technical debt by **30%**.
- **Participated in** Agile ceremonies — sprint planning, daily stand-ups, and retrospectives — to maintain delivery predictability across release cycles.

Thiruvananthapuram, Kerala

- **Delivered** structured technical training on Angular, JavaScript, TypeScript, Node.js, and Express.js to 20+ trainees, accelerating onboarding readiness for live projects.
- **Designed** hands-on practical exercises and real-world debugging scenarios, improving trainee project-completion rates and code quality.
- **Engineered** internal React-based applications using component-based architecture, state management, and responsive UI — later adopted as reference material for subsequent training batches.
- **Mentored** trainees on debugging and best practices, directly contributing to improved code review pass rates and faster ramp-up to production-ready output.

PROJECT EXPERIENCE

Angular Enterprise Application — Client: Apple Inc.

Apr 2024 – Present

Stack: Angular 13 → 20, TypeScript, NgRx, RxJS, Angular Material, AWS S3 & EC2, Jasmine/Karma | Deployment: AWS EC2 with S3-backed asset delivery

- **Contributed to** 4 enterprise-scale Angular applications supporting global business operations and stakeholders.
- **Enhanced** enterprise Angular modules used by global stakeholders — implementing reusable components, API integrations, and complex business workflows.
- **Delivered** responsive UI ensuring consistent performance across devices, reducing UI-related issues by **25%**.
- **Led** the migration of Angular applications from **Angular 13 to Angular 20**, adopting **Standalone Components, Angular Signals, and zoneless change detection** — reducing technical debt by **30%** and improving application performance by **25%**.
- **Deployed and integrated** AWS S3 and EC2-based APIs for scalable media handling, with CI/CD-driven build and release automation.
- **Resolved** complex production issues through root-cause analysis, improving application stability and user experience.
- **Leveraged** AI-assisted development tools for code generation, debugging, test automation, and documentation.
- **Collaborated** with product owners, backend developers, QA engineers, and stakeholders across multiple locations in an Agile environment, participating in sprint planning and retrospectives.

EDUCATION

B.Sc. Computer Science — Kerala University

2023

National College, Thiruvananthapuram | CGPA: 7.1 / 10

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Web Technologies, Database Management Systems, Computer Networks, Software Engineering.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** — Amazon Web Services (*in progress*)
- **Angular — The Complete Guide** — Udemy (covers Angular 17+, Signals, Standalone Components)
- **Node JS / Express JS** — Udemy
- **JavaScript Algorithms and Data Structures** — freeCodeCamp

CORE STRENGTHS

Strong analytical and debugging skills • Independent ownership of complex UI modules • Rapid adaptability to new frameworks and tools • Clear stakeholder communication • Focus on scalable, maintainable code architecture

LANGUAGES

English (Fluent) • Malayalam (Native) • Tamil (Conversational)
